

Snowplow Blades

Kennametal engineers and manufactures blades to the highest standards, offering unparalleled fracture and wear resistance. We have a large selection of blades designed for all conditions, manufactured in **Bedford, PA, USA**.

Standard Blades

- General purpose blades.
- Economic value.
- Variety of carbide geometries.

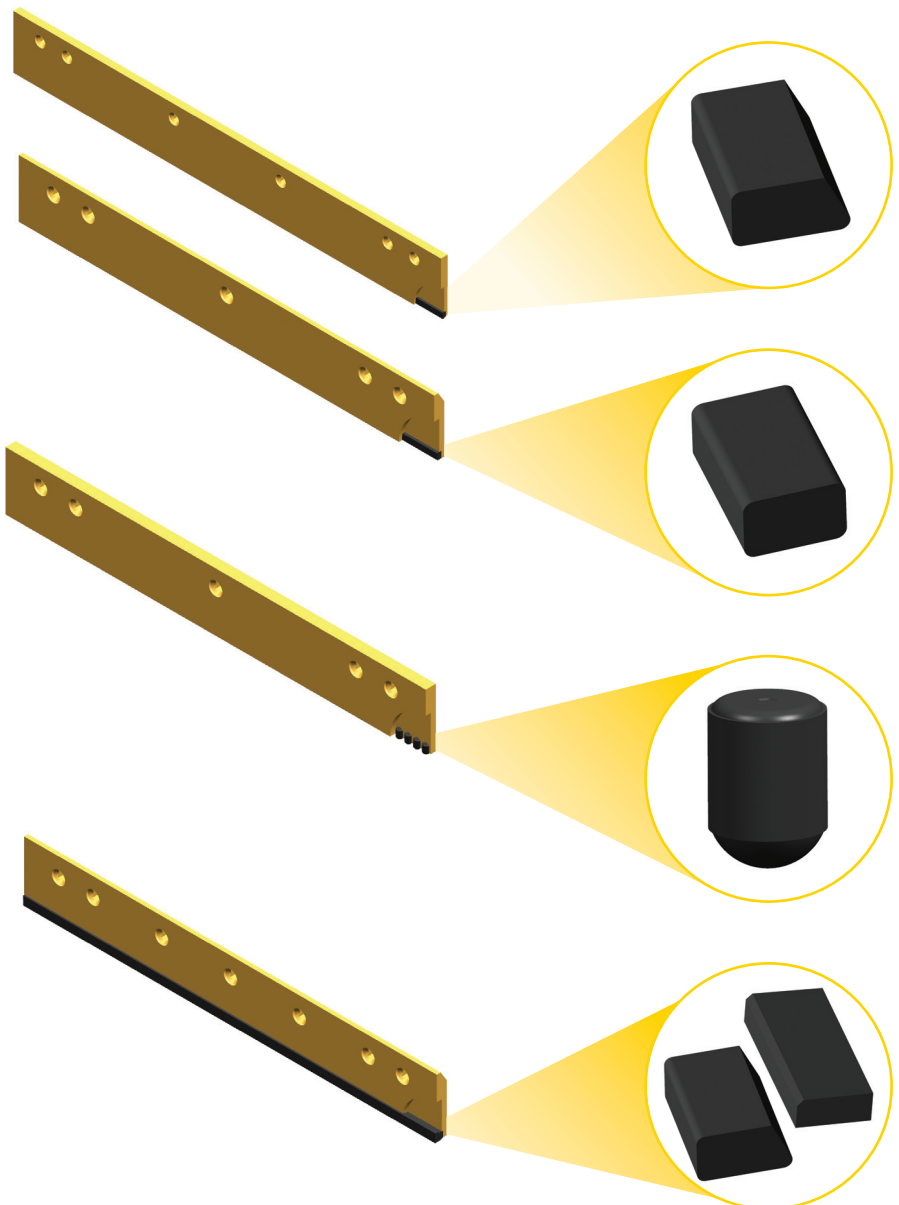

I.C.E. Blades

- Designed specifically for ice and hard-pack snow removal.
- Highest fracture resistance.

Dual-Carbide Blades

- Maximum wear resistance — designed for high wear and low impact.
- Outlasts all other forms of carbide protection.
- Excellent choice for underbody plows.
